Subject: Tega Cay sewage

Good evening,

I just wanted to write a quick note about my frustration with our situation in Tega Cay. As a resident since 1998, my husband and I recognize what drew us to Tega Cay and frankly what keeps us here... the spirit of our community and the fun recreational aspects that all tie back to Lake Wylie. We are a family of lake people! It is truly sad, not to mention embarrassing, that our sewage is literally ruining what I view as our City's greatest treasure. The ongoing sewage problem is very frustrating to us in Tega Cay, and everyone else who is impacted. We, as [high] paying customers, should be able to trust that our water is clean and that our sewage is treated so as not to harm our environment... and obviously this has NOT been the case. And it's not new, just worsening. If we are unable to trust those we pay to maintain our systems appropriately, then usually (in business) it means we go another route. I certainly hope that TCWS truly is doing everything possible to not only stop the problem, but to clean up the damage that has been done; and that our regulators are watching closely to ensure that is the case.

Thank you for your attention and help,
Amy Massey
